FRENCH DRESSING JEANS

MONACO MUSE

Sophisticated resortwear reigns in Spring 2025 — evoking the casual elegance of the south of France. Sunny yellows, cool pinks, and patina greens are focal points of color this season, but there is a new emphasis on neutrals — specifically shades of brown and black. Curved edges and scallop details bring new life to classics, and three dimensional appliques add a dash of drama. Sheer inserts and metallic details add a layer of glamour. Tailored details, stripes, and set dressing continue to be important.
