

A woman with long blonde hair is walking in profile from left to right against a textured, light-colored wall. She is wearing a strapless, floor-length dress with a vibrant floral pattern in shades of purple and orange. The dress has a high slit on the left side. She is also wearing a gold cuff bracelet on her right wrist and light-colored strappy high-heeled sandals. The lighting is bright, casting a shadow on the ground.

# l'oasis

SPRING / SUMMER 2025

l'oasis

Amidst the hustle and bustle of the modern world, we are all looking for a place to find peace and serenity, a refuge where we can reconnect with ourselves and with nature. This idea is the inspiration behind Mus&Bombon's spring-summer 2025 collection; l'oasis.

# About Us

Mus & Bombon was born in 2015 under the idea of creating timeless garments, 100% made locally and made of sustainable fabrics that become a conscious wardrobe staple.

# Our DNA

## 1. ROOTS

We are a brand inspired by what surrounds us and our purest essence comes from our roots, from our culture.

## 2. CONSCIOUS DESIGN

Our garments are designed to endure the passage of time and to outlast fads. We create those garments that become your wardrobe's essential.

## 3. EXCLUSIVITY

Our collections are limited and exclusive, made up of unique pieces and stocked in small quantities.

## 4. QUALITY

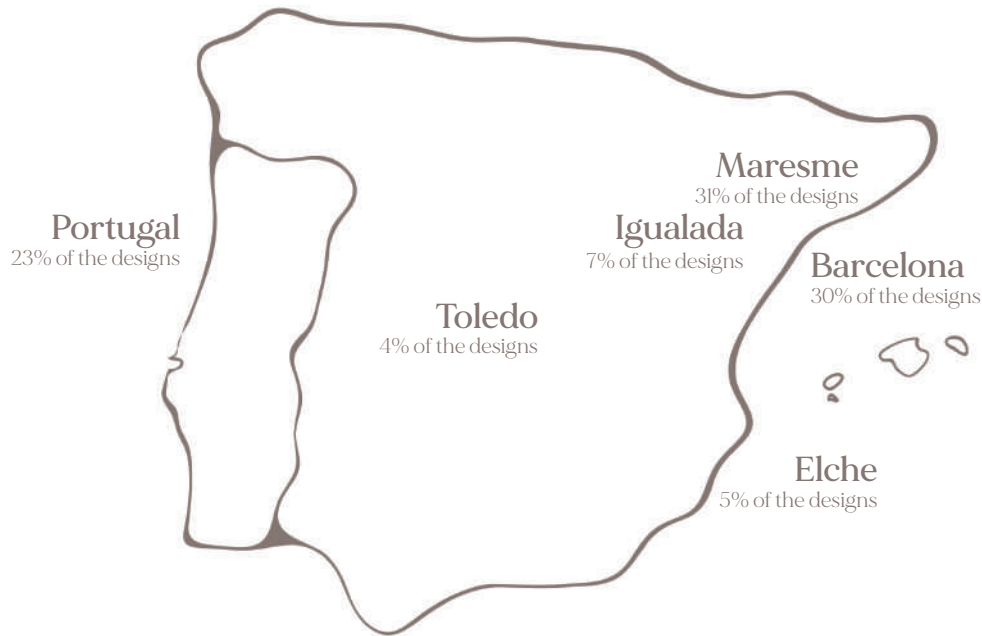

We work with fabrics that are exclusively selected to offer the maximum durability and quality of the garment.

## 5. PROXIMITY

We are committed to producing all our garments and accessories in workshops on the peninsula, giving value, opportunity and visibility to local work.

# Made in la Peninsula

All our workshops are located in the peninsula to guarantee a product of proximity.

**Barcelona** - 9 km away from our office

We make dresses, blouses, trousers and accessories.

**Igualada** - 60 km away from our office

We manufacture most of our tricot pieces.

**Maresme** - 30 km away from our office

We make dresses, blouses, shirts, suits and swimwear.

**Elche** - 500 km away from our office

We produce our accessories, such as shoes and bags.

**Toledo** - 689 km away from our office

We make tricot pieces.

**Portugal** - 1050 km away from our office

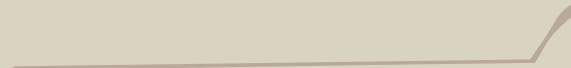

We manufacture pieces such as sweatshirts, T-shirts, jeans and accessories.

# 4 main collections

Our Spring-Summer and Fall-Winter collections are presented twice a year with its corresponding capsules.

# l'oasis

L'oasis is the search for a place to feel good, a sanctuary where harmony and beauty intertwine with sustainability. Inspired by the timeless beauty of the most tranquil landscapes, each piece has been conceived to transport the wearer to a state of profound well-being.

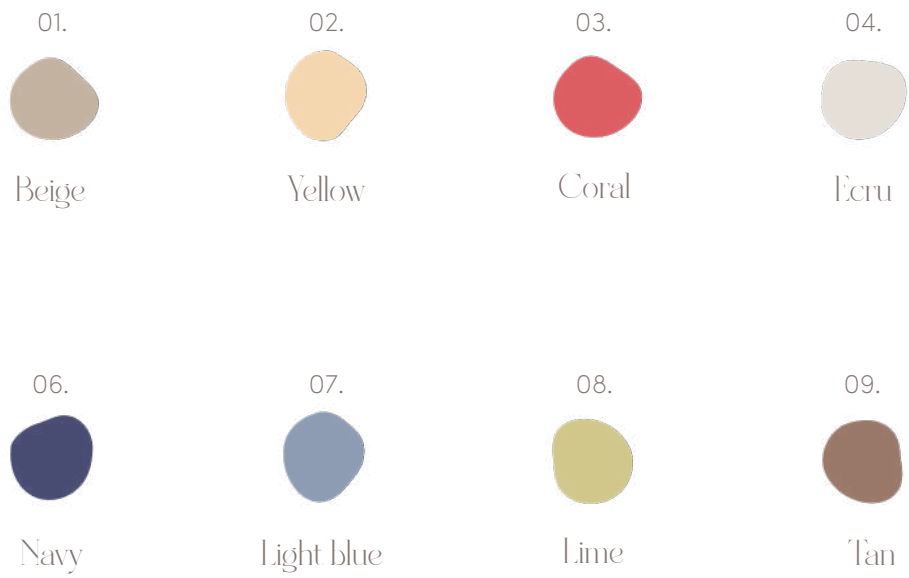

We invite you to embark on your journey towards the search for that place where you feel good and where you can create your personal refuge. A place where every garment wraps you in a sense of wellbeing and every detail connects you with the essence of nature.

# The colours of l'oasis

# Fabrics

We are committed to sustainable fashion, and that's why we have selected materials that respect the environment. Organic cotton, linen, ecoviscose and tencel as the base of our creations, guaranteeing freshness and comfort on hot summer days.

# Certificates

We work with fabrics and suppliers that minimise environmental impact and promote the conservation of natural resources.

## BCI

Este certificado promueve los estándares de excelencia del cultivo del algodón desde el principio hasta el final del proceso.

## Bureau Veritas

Bureau Veritas is a global leader in testing, inspection, and certification services. It assists clients in meeting standards and regulations in quality, health, safety, and environmental protection.

## European Flax

It is a quality and sustainability certification for flax grown in Europe, awarded by the European Flax and Hemp Confederation (CELC) and guarantees that flax meets high quality standards and is produced in an environmentally friendly way.

## EcoVero Lenzing

Environmentally responsible certification, EU Ecolabel. Transparency in the supply chain: ECOVERO viscose fibres can be identified in the final product.

## FSC

They guarantee that the fabrics are sourced from forests where good practices are ensured when harvesting according to minimum standards of good management.

## GOTS

The world's leading textile processing standard for organic fibres. It guarantees a 70% organic fibre composition, verification of cultivation and soil free of toxic substances, as well as ethical working conditions.

## GRS

They develop, manage and promote a set of industry-leading standards that enable brands and retailers to measure, manage and track their use of fibre and preferred materials.

## Green To Wear

A certification that guarantees that the garments produced meet high standards of environmental and social sustainability throughout the supply chain.

## Nativa

A programme that protects the land by improving soil quality, protects animals by ensuring their health and supports farmers and local communities by improving their livelihoods.

## OEKO-TEX

It accredits companies that satisfactorily comply with the most stringent humane and environmentally friendly production and material requirements.

## Organic Content Standard

It is an international, voluntary standard that certifies organic inputs and chain of custody. The objective of the OCS is to increase organic agricultural production.

## SMETA

Assesses social and ethical responsibility in the supply chain. Addresses labour standards, business ethics, health, safety and environment to promote sustainable and transparent practices.

## Recycled Claim Standard

Verifies the recycled content in textile products, ensuring transparency and compliance with environmental criteria, from collection to final product.

## Recover

Led by a team of passionate experts in materials science, textiles, fashion and sustainability. Promotes a closed loop industry and the recycling of textiles.

## RSE

A set of practices and policies that companies adopt to operate in an ethical and sustainable manner, considering their economic, social and environmental impact.

## The Global Compact

It accredits companies that satisfactorily comply with the most stringent humane and environmentally friendly production and material requirements.

## V-label EU

It is a European certification that identifies vegan and vegetarian products, ensuring that they contain no animal ingredients and meet specific production standards.
